NOTE: Due to a change in reporting method, as of August 6, 2008 "probable cases" in addition to "confirmed cases" for enteric diseases will be included in the "Total this Week" and "Total this Year" columns. This is likely to increase the number of cases reported from this point forward.

NOTE: Due to a change in reporting method, as of August 6, 2008 "probable cases" in addition to "confirmed cases" for enteric diseases will be included in the "Total this Week" and "Total this Year" columns. This is likely to increase the number of cases reported from this point forward.
