

Jeb Bush
Governor

John O. Agwunobi, M.D., M.B.A.
Secretary

Thank you for calling the Palm Beach County Health Department Flu information and referral line.

At this time we have accumulated a waiting list to match the amount of flu vaccine we have on hand and anticipate arriving in January.

If you already gave your name for the waiting list and have not received a call please be patient as we are trying to reach and schedule all on the list.

In the mean time please recheck with your private medical provider as many doctors received the flu vaccine between December 15 and now.

Please keep in mind that a pneumonia shot can prevent serious complications from the flu. Should you be exhibiting flu symptoms antivirals prescribed by your doctor can reduce symptoms and even help prevent further complications.

Please continue to monitor your personal health status, avoid crowded places, wash your hands often and stay at home if you are sick.

Keep monitoring your favorite media source for further updates on when and where flu shots will be offered in late January.
